Level 4, 650 Lorimer Street  
Port Melbourne, 3207  
Victoria

Dear Martin

### Construction of Mercedes-Benz Autobody

On behalf of Mercedes-Benz Australia Pacific Pty Ltd, I would like to thank you and your team for the outstanding manner in which you successfully completed our new "Mercedes-Benz Autobody" project at 51 Wharf Road, Port Melbourne.

From the outset the design team worked professionally in understanding and incorporating our global corporate guidelines and standards into the design, and the project site team worked tirelessly to ensure that our specialised fitout contractors and equipment were accommodated into the facility without fuss, delay or complication. The manner in which you managed the site, the accessibility you gave to Mercedes-Benz senior management to site visits and inspections, and the transparent manner in which you conducted the project was excellent.

Like other construction projects, this one had its share of challenges. Your approach to these complications, the quick manner in which they were resolved and your commitment to this project and Mercedes-Benz was beyond compare.

Once again, we appreciate Salta Constructions commitment and excellence to ensure that this dealership is truly a state of the art showcase for our customers and staff, and a great addition to our Dealer Network.

Yours sincerely

Richard Tan  
Senior Project Manager / Company Architect  
Network Development
